Subject: RE: AC/Heating Unit

Hi Steve,

The noise is back with a vengeance. It must be outside temperature dependent. Could you see if the contactor who install it is responsible or is Johnson Controls?

Jim

2 different people looked at it someone from heating and someone from plumbing. When the system is calling for heat there is an annoying banging in the system and UMass can't figure out what is wrong.

Hi Steve,

We are having a problem with the heating unit in Morrill I, Room N251. Is it still under warrantee? UMass has tried to fix it but they can't.
